

Vehicle History Summary		Vehicle Value	
NMVTIS Information		NADA Price Guide	
VIN Number	JNKAJ09F08M354614	Retail Value	\$12,400
Title Record (s)	✓ 4	Trade in Value	\$9,475
Brand Record (s)	✓ 0	Rough Trade in Value	\$7,125
Junk and Salvage Record (s)	⚠ 1	Average Trade in Value	\$8,400
Insurer Record (s)	✓ 0	Loan Value	\$8,550

Vehicle Specifications

The vehicle specifications below are derived by decoding the VIN and come from a variety of VINSmart data providers.

Make	INFINITI	Year	2008
Model	EX35-V6	Body Type	Wagon 4D AWD
Trim	EX35 4WD Journey	Tank (gallon)	20.00
Manufactured in	JAPAN	Fuel Economy (City, miles/gallon)	16
Production Seq. #	354614	Fuel Economy (Highway, miles/gallon)	23
Engine Type	3.5L V6 DOHC 24V	Seating (standard)	5
Transmission	5-Speed Automatic	Seating (optional)	No data
Driveline	4WD	Length (in.)	182.30
Anti-Brake System	4-Wheel ABS	Width (in.)	71.00
Steering Type	R&P	Height (in.)	61.90

Title Information

Source: NMVTIS

This section shows you each State where the vehicle has been titled, when it was titled, the odometer reading on the date of title, etc. There is good information here to protect you from fraud. Keep an eye out for the odometer readings. If the current odometer reading is less than it was in one of these title records, you might suspect a fraud tactic called "Odometer Rollback." For more details on this VIN in the state please click the applicable state link from the "State of Title".

Title Issue Date	State of Title	Odometer Reading	Unit Of Measure	Title Type
10/06/2011	A1	65564	Miles	Current
04/15/2010	AA	10005	Miles	History
09/30/2008	A1	9905	Miles	History
01/30/2008	A1	5	Miles	History

Lien, Impound and eBay Information

Source: NVS

This section contains information used by investigators, including current lien holder, export, impounds, and auction sales. The data is provided by National Vehicle Service (NVS), highly regarded as the vehicle finance industries' link to law enforcement throughout North America. For more details about auction events please click the applicable event description link in the column below. eBay auction information is subject to eBay retention policies and may no longer be available.

Event Date	Description
No lien, impound and eBay information has been reported.	

Title Concerns

Source: NMVTIS

A title brand is an official record of damage or other information about a vehicle that could affect its value or the ability to operate it safely. For example, a "rebuilt" title brand means the vehicle has suffered enough damage to be declared a total loss by an insurance company and then was rebuilt. A title brand remains on record for the life of the vehicle. This section gives you a summary view of the total number of "Brands" associated with this VIN since its first record of sale. If this section shows any hits, a description of the brand will be listed alongside the name of the brand and the date in which it was branded.

- ✓ No Agricultural Vehicle Records
- ✓ No Antique Records
- ✓ No Classic Records
- ✓ No Collision Records
- ✓ No Dismantled Records
- ✓ No Fire damage Records
- ✓ No Flood damage Records
- ✓ No Gray Market Records
- ✓ No Hail damage Records
- ✓ No Junk Records
- ✓ No Kit Records
- ✓ No Logging Vehicle Records
- ✓ No Original Police Records
- ✓ No Original Taxi Records
- ✓ No Owner Retained Records
- ✓ No Prior Police Records

Recall Information

Source: NHTSA

This section contains information from National Highway Traffic Safety Administration Vehicle Safety. To find out if your vehicle still has open recalls that require repair, VINSmart recommends contacting an authorized dealer for more information.

Recall No.:	15V054000	Report Receipt Date:	02/02/2015
Component(s):	Steering:Column	View More Recall(s)	

Summary

Nissan north america, inc. (nissan) is recalling certain model year 2008 infiniti ex35 vehicles equipped with the power tilt/telescope option included in the premium package, manufactured june 29, 2007, to april 25, 2008, 2009 infiniti fx35 and fx45 vehicles manufactured october 31, 2007, to april 16, 2008, and 2009 nissan gt-r vehicles manufactured march 14, 2007, to april 25, 2008. The steering column outer tube may not be round, resulting in extra stress being applied to the upper steering bearing. This stress may cause the bearing retainer to fracture, creating extra play in the steering wheel or a possible loss of steering.

Consequence

Extra play in the steering wheel or a loss of steering may increase the risk of a crash.

Remedy

Nissan will notify owners, and dealers will replace the steering shaft on the infiniti ex35, fx35, and fx45 vehicles, and will replace the steering column assembly on the nissan gt-r vehicles, free of charge. The recall began on march 9, 2015. Infiniti owners may contact customer service at 1-800-662-6200. Nissan owners may contact the gt-r hotline at 1-866-668-1487.

Notes

Owners may also contact the national highway traffic safety administration vehicle safety hotline at 1-888-327-4236 (tty 1-800-424-9153), or go to www.safercar.gov.

Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and [brand](#) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on [all](#) motor vehicles in the United States because [some states](#) are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The [Approved NMVTIS Data Providers](#) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from [participating](#) state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

VINSmart prepares its vehicle history and title reports based on data from government sources and independent agencies, including NMVTIS. VINSmart relies on its data sources for the accuracy and reliability of the information provided in its reports. VINSmart neither enters nor validates the data from its sources, and does not guarantee the accuracy or completeness of the data provided. Therefore, no responsibility is assumed by VINSmart or its agents for errors or omissions in this report. VINSmart further expressly disclaims all warranties, express or implied, including any implied warranties of merchantability or fitness for a particular purpose.
